Appl. No. 10/813,410
Amdt. Dated Nov. , 2007
Reply to Office Action Mailed Aug. 15, 2007

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A project bidding transaction management system connectable with an electronic marketing system and a financial management system, the project bidding transaction management system comprising:

a database server comprising a database for storing data used or generated in implementing the project bidding transaction management system;

a plurality of client computers, each of the client computers providing a user interface for users of an outsourcing organization to input requirements of an outsourcing project and inquire of data stored in the database; and

an application server for managing project bidding transactions, the application server comprising:

a basic data maintenance module provided for receiving requirements of outsourcing projects, and generating specifications for the outsourcing projects according to the requirements, wherein the specifications are transmitted to the electronic marketing system to be made public by the electronic marketing system, and the electronic marketing system is used for collecting basic data on those bidding companies wishing to bid on an outsourcing project and their respective quotations, and generating a list of the bidding companies;

respective contractors, and managing contracts signed between respective parties.

Claim 5 (original): The project bidding transaction management system according to claim 1, wherein the application server further comprises a message transmission module provided for generating notices recording the bid results, and transmitting the notices to corresponding contractors.

Claim 6 (original): The project bidding transaction management system according to claim 1, wherein the electronic marketing system further provides an operating platform through which outsourcing organizations can initiate public bidding activities, and collect basic information on bidding companies and their respective quotations.

Claim 7 (original): The project bidding transaction management system according to claim 1, wherein the financial management system is provided for setting base prices and acceptable price ranges for outsourcing projects.

Claim 8 (currently amended): A computer-enabled project bidding transaction management method, comprising the steps of:

generating specifications for an outsourcing project;

transmitting the specifications to an electronic marketing system to be made public by the electronic marketing system;

receiving quotations from bidding companies by the electronic marketing system;

generating a list of the bidding companies by the electronic marketing system;

selecting a plurality of suitable bidders from a list of the bidding companies according to the quotations and the specifications for the outsourcing project;

determining whether it is necessary to negotiate any price with any of the bidders;

receiving at least one new quotation offered by at least one of the bidders if it is necessary to negotiate any price with any of the bidders;

determining a contractor for the outsourcing project according to the quotations and the specifications for the outsourcing project, and generating a bid result; and

issuing the bid result and declaring an end to the project bidding transactions.

Claim 9 (original): The method according to claim 8, further comprising the step of receiving requirements of the outsourcing project from any one or more client computers.

Claim 10 (currently amended): The method according to claim 8, further comprising the step of making the specifications for the outsourcing project public in [[an]] the electronic marketing system.

Claim 11 (original): The method according to claim 8, further comprising the step of setting a project schedule according to an implementation plan provided by the contractor and the specifications for the outsourcing project.

Claim 12 (canceled)
